

CITY OF ARANSAS PASS

AGENDA MEMORANDUM

City Council Meeting of May 15, 2018

Date: May 14, 2018

To: Mayor and City Council

From: Gary Edwards, City Manager

Title: Consider and Act on an Agreement with LNV Engineers for the Pelican Cove Bulkhead Repairs

PURPOSE: To do design work for bulkhead repairs at Pelican Cove

BACKGROUND AND FINDINGS: This is an issue that has been discussed and worked on for several years. Near the entrance of Pelican Cove at the first canal, part of the bulkhead has weakened. The bulkhead itself is on private property, however, the City has done work at this location previously, but the problem still is not resolved. Although much of the proposed repair work would impact private property, this project also has the likelihood of impacting city property. The purpose of this proposal is to bring in a structural engineer to provide a final resolution to this problem. This proposal is for the design work only. Staff would need to bring back to you the proposed construction work after the design is completed.

EMERGENCY/NON-EMERGENCY: Non-Emergency

DEPARTMENTAL CLEARANCES: Yes

FINANCIAL IMPACT:

Cost: \$3,500

RECOMMENDATION: Staff recommends approval based on the fact that this project impacts City property and the City already has a history of doing work at this site to try and correct the problem. Once the design is completed and we find out the cost and how extensive the repairs need to be, a discussion about proceeding forward is warranted.
